

Southport Dementia Hub

We are pleased to announce that representatives from the North West Ambulance Service NHS Trust, local health services, the Alzheimer's Society and Mersey Fire and Rescue Service are collaborating to bring you the Southport Dementia Hub.

The event will provide information, expert advice and support to people who have been touched by dementia, including care staff and healthcare professionals who would like to know what services and support is available locally.

Refreshments will be available and there will be the opportunity to speak with mental health nurses, other healthcare professionals and the fire service.

Plus why not try some of the complimentary therapies provided by Sefton OPERA (Older Persons Enabling Resource & Action).

We hope you can join us as the hub will offer lots of help, support and information, and the opportunity to sit and have a cup of tea and a chat, in a relaxed setting.

**11th March 2019
2:00pm 'til 5:00pm**
